

Product Information

Blue Streak

DESCRIPTION

Blue Streak is a blend of anionic and non-ionic surfactants and co-surfactants in an aqueous solution.

FEATURES AND BENEFITS

BLUE STREAK encapsulates air in the fluid creating micro-bubbles. The elevated LSRV and bridging effect of the micro-bubbles significantly reduce or eliminate formation losses.

RECOMMENDED TREATMENT

Recommended initial concentration for optimum performance is 3-4 L/m³.

HANDLING

For specific precautions and handling see MSDS information.

AVAILABILITY

Blue Streak is packaged in 18.93 L pails and is available from HiTech Fluid Systems Ltd.
