

Product Information

Flowline Xanthan-15D

GENERAL DESCRIPTION

FLOWLINE XANTHAN-15D is a high-performance, pure dispersible, Xanthan Gum biopolymer used to impart low end, shear thinning and suspension properties in drilling fluids.

TYPICAL PHYSICAL PROPERTIES

Appearance	Off-white powder
pH, 1%Solution	5.0 – 6.6
Moisture, %	6 - 16

SCREEN ANALYSIS

U.S. Mesh	% Thru
20	98% min
40	95% min

RHEOLOGY (0.28% IN SEAWATER)

Fann 600	75 – 150
Fann 300	55 – 120
Fann 200	45 – 100
Fann 100	35 – 80
Fann 6	15 – 40
Fann 3	12.5 - 35

HANDLING

See MSDS information for specific instructions.

AVAILABILITY

Flowline Xanthan-15D is available from HiTech Fluid Systems Ltd.
