

Product Information

Plasticizer

DESCRIPTION

Plasticizer is a plasticizing co-solvent for enhancing the shell structure of aphrons.

FEATURES AND BENEFITS

Plasticizer, when combined with the other Aphron ICS™ System additives, reduce permeability of the aphron shell. These products provide significantly greater resistance to loss of air during compression, as well as improved sealing performance.

RECOMMENDED TREATMENT

Contact HiTech Fluid Systems for recommended concentration.

HANDLING

For specific precautions and handling see MSDS information.

AVAILABILITY

Plasticizer is packaged in 18.93 L pails and is available from HiTech Fluid Systems Ltd.
